## Message from the Chair

During this reporting period the workload the number of development proposals submitted to the EISC was less when compared to the past several years. However, the nature and complexity of some developments proposals and the Committee's revisions to their Operating Guidelines and Procedures resulted in a full agenda for the year.

The EISC produced draft revisions to their Operating Guidelines and Procedures in December 2007 which were widely distributed for comment. The responses received will help guide the development of second draft which the Committee plans to have completed in 2008/2009.

The training of the Members and enhancing the capacity of the Committee is a priority for the EISC. To this end the Members attended a number of workshops and meetings. To improve the efficiency of the Committee's screening of developments the EISC converted to paperless meeting binders. This undertaking reduced the burden on the Joint Secretariat and the agencies and organizations which provide advice to the Committee.

The Committee's operations benefited from having a full complement of members for the reporting period. At this time I would like to acknowledge the EISC members and the Committee as a whole for their hard work and the passion they bring to their work. Many of the Members manage to carry out their EISC responsibilities while holding down full time employment.

Early in the year when the Committee was without a Coordinator members of the Joint Secretariat supported the EISC; their support was most appreciated. Barb Chalmers was hired in the summer of 2007 and organized the office and the administration of the Committee. The EISC would not have been able to function effectively nor would have been able to make the conversion to the digital world without the tireless efforts and enthusiasm of the EISC Coordinator. The Committee also benefits from the administrative support and advice from the Joint Secretariat staff, namely Dr. Norm Snow, Connie Gordon, Erica Lugt, Meeka Kisoun, Bernice Joe and Peggy Madore; to all we extend our appreciation.

Fred McFarland  
Chair, Environmental Impact Screening Committee

## Period of this Report

The Environmental Impact Screening Committee (EISC) has produced twenty annual activity reports since its inception in 1986. This report describes the EISC's activities for the fiscal period of 1 April 2007 to 31 March 2008 – its twentieth year of operation.

## The Inuvialuit Final Agreement

On June 5, 1984, the Committee for Original Peoples' Entitlement (representing the Inuvialuit) and the Federal Government of Canada signed the Inuvialuit Final Agreement (IFA), which was subsequently legislated under the Western Arctic (Inuvialuit) Claims Settlement Act [S.C. 32-33 Elizabeth II C.24.]. Provisions of the IFA enable the Inuvialuit to participate and be meaningful partners in all decisions-making processes dealing with the management of the environment and wildlife within the Inuvialuit Settlement Region (ISR). Section 1 of the IFA expresses the following principles.

- To preserve the Inuvialuit cultural identity and values within a changing northern society
- To enable the Inuvialuit to be equal and meaningful participants in the northern and national economy and society
- To protect and preserve arctic wildlife, environment and biological productivity

As one of five co-management groups established under the terms of the IFA, the EISC plays a vital role in achieving these stated goals through implementing the screening portion of the IFA Environmental Impact Screening and Review Process.

## Mandate of the Environmental Impact Screening Committee

The Western Arctic (Inuvialuit) Claims Settlement Act and the IFA take precedence over any other federal, territorial, provincial, or municipal law to the extent of any inconsistency or conflict between them. Developers, operators, and regulatory agencies are compelled by this act to comply with the provisions of the IFA Environmental Impact Screening and Review Process.

The IFA requires the screening of developments and activities of consequence to the ISR that could have a significant negative impact on the environment or wildlife harvesting. The IFA also dictates that regulatory agencies must not issue

licenses or approvals that permit any development to proceed without environmental screening and, if necessary, review.

Section 11 of the IFA provided for the establishment of the EISC to carry out the screening of relevant developments. Provisions governing the activities and operation of the EISC are described mainly within Section 11 and 13. Section 11.(17) requires the EISC to make one of the following decisions after examining a project description.

- a) that the development will have no significant negative impact and may proceed without environmental impact assessment and review;
- b) that the development, if authorized subject to terms and conditions recommended by the Screening Committee, will have no such significant negative impact and may proceed without environmental impact assessment and review;
- c) that the development could have significant negative impact and is subject to assessment and review; or
- d) that the development proposal has deficiencies of a nature that warrant termination of its consideration and submission of another project description.

Subject to the aforementioned provisions, the EISC produced its Operating Guidelines and Procedures, which governs its routine activities in regard to the actual screening of development proposals.

The Operating Guidelines and Procedures are currently available from the Joint Secretariat office and on the internet at [www.jointsecretariat.ca](http://www.jointsecretariat.ca). You are directed to contact the Environmental Assessment Coordinator for up-to-date information.

## Membership

The EISC consists of seven members, including the Chair. The Inuvialuit Game Council (IGC) appoints three members. The Government of Canada (Canada), the Yukon Territorial Government (YTG), and the Government of the Northwest Territories (GNWT) nominate one member each, who are then appointed by the Government of Canada. The Government of Canada with the consent of the IGC appoints the Chair. Each member is appointed for a three-year term with the option of re-appointment if agreed to by the nominating and appointing bodies.

The EISC is considered an institution of public government. The members contribute to the deliberation of the Committee as experienced individuals and not as representatives of their appointing body.

The following individuals comprised the EISC as of 31 March 2008:

### Chair

|                                   |  |

## Administrative and Technical Assistance

The EISC receives administrative, technical, and clerical support from the Joint Secretariat – Inuvialuit Renewable Resource Committees situated in Inuvik, NT. The EISC Environmental Assessment Coordinator who serves as the Secretary to the EISC provides full-time assistance. Agnes Noksana left the EISC in May 2007. Katherine Thiesenhausen and Richard Binder of the Joint Secretariat assisted the Committee for the month of June. Barb Chalmers was hired on a temporary basis in June 2007 and was later hired fulltime in September.

During the period of this report the EISC also received administrative support from various employees of the Joint Secretariat including: Dr. Norm Snow, Executive Director; Connie Gordon and Peggy Madore, Senior Administrative Officer; Robin Carpenter, Erica Lugt, and Donna Firth, Finance Officers; Meeka Kisoun, Travel/Accommodation Coordinator; Bernice Joe, Secretary/Receptionist; Myrna Button, Office Clerks/Librarians; and Michael Kohler, GIS Operator; and Eli Arkin, EIRB Coordinator.

John Donihee, John Donihee Professional Corporation provided contractual legal services.

## Activities

Members attended screening meetings approximately every five weeks and participated in other activities on behalf of the EISC, as required, to fulfill the mandate of the EISC.

### Regular meetings

The EISC held 10 meetings in Inuvik, NT on the following dates:

April 25-27, 2007; May 30 – June 1, 2007; July 4-6, 2007; August 8-10, 2007; September 12-14, 2007; October 21 & 22, 2007; December 12-14, 2007; January 30 – February 1, 2008; February 27- March 1, 2008.

In addition to the regular meeting the EISC held 4 conference calls on the following dates: July 9, 2007, September 20, 21 & 25, 2007, October 29 & 30, 2007 and March 13, 2008.

### Submissions

It is the responsibility of the proponent to submit a project description to the EISC for environmental screening. Screening decisions are made by a panel of five EISC members. The Panel consists of the Chair, two Inuvialuit members, the Canada member, and the Territorial member nominated by the territory (YT or NT) within which the project is to occur. Decisions are made on a majority vote basis, with the Chair voting only in the case of a tie.

In regard to submissions received by the EISC, 2007/2008 was not a busy year when compared with the previous few years. 41 descriptions were submitted. However, the complexity of some of the proposals and the associated issues created additional work for the Committee.

Of the total submissions, 3 project descriptions were withdrawn by the proponent prior to the completion of the screening process: 2 tour businesses.

No projects were referred to the Environmental Impact Review Board.

In summary, the EISC screened 41 project descriptions during 2007/2008 including: hydrocarbon exploration projects (6); mining exploration projects (6); reclamation and cleanup projects (6); fuel tank upgrading (2); off-shore equipment/fuel storage (2); government research projects (8); university research projects (6); tourism projects (3); and filming projects (1).

During 2007/2008 the EISC decided that:

Twelve of the proposed developments would have no significant negative impact, 24 developments would have no significant negative impacts with recommended terms

and conditions. One project was determined to be deficient. Two projects were found to be exempt. Two projects were withdrawn by the proponent.

The screening process for the majority of submissions (n = 29, 71%) required less than 60 days to complete, 15 percent (n = 6, 15%) of the submissions were screened in less than 30 days from the date of receipt, requiring a resolution by the EISC to waive the standard requirement. None of the project submissions were deemed to have the potential for significant negative impact. Please refer to the end of this report to view a summary table of this year's screening decisions (Appendix A).

In addition to developments that are screened, the EISC asks to be informed of other projects that are proposed for the Inuvialuit Settlement Region, but for various reasons are exempt from the screening process. This task is undertaken so that the EISC may have a broad picture of the activities being carried out within the ISR for the purposes of cumulative impact assessment. The EISC greatly appreciated the efforts of the other co-management groups, the government agencies, the Aurora Research Institute and the Inuvialuit Land Administration during the reporting year to keep the EISC apprised of such activities.

The exempted projects in 2007/2008 were research projects that had gone through the IFA co-management process, were non-government sponsored or funded research, or developments occurring on Inuvialuit Private Lands.

## **Presentations and Guests**

The EISC routinely accepts presentations from proponents with project descriptions before the EISC, particularly when the proposal is controversial or complex. Guests may be invited to sit in on these presentations, or are invited to speak on topics of mutual interest. The following summarizes the presentations and guests received during 2007/2008.

### **April 25-27, 2007**

GNME - Great Northern Mining and Exploration on Victoria Island [03/07-05] on April 26, 2007 at 9:30 am Dylan Morgan attended to discuss the above noted project.

*GX Technology – GXT Beaufort Span 2D Marine Seismic Program 2007 [ 03/07-03]* on April 26, 2007 at 10:30 am Dean Kennedy attended to discuss the above noted project

MGM Energy Corp.: Shirley Maaskant attended to give an introduction for the upcoming applications to be submitted. April 26, 2007 at 2:00 pm

Marlene Evans, Environment Canada – Biological Studies of waters along the Mackenzie Gas Pipeline route [02/07-05] 2:30 pm., by teleconference).

### **May 30-June 1, 2007**

*MGM Energy Corp. Ogruknang 2D Seismic Program 2007 – 2010 [05/07-01], North Ellice & Olivier 3D Seismic Program [05/07-02], 2007 – 2009 Summer Field Assessment & Advance*

*Barge Project [05/07-03], Ellice, Langley & Olivier Drilling, Completion & Testing [05/07-04]* May 31, 2007 at 9:30 am Shirley Maaskant, Ed Kustan and Roy Steinhauer attended to discuss the above noted projects.

*GX Technology – GXT Beaufort Span 2D Marine Seismic Program 2007 [03/07-03]* May 31, 2007 at 10:30 am Rob Pitt and Dean Kennedy attended to discuss the above noted project.

### *July 4-6, 2007*

*2006-2008 Mallik Gas Hydrate Production Research Project, Aurora Research Institute (Applejohn) [09/06-01]* July 5, 2007 at 10:00 am The following people attended to discuss the above noted project: Doug Ashford and Gerardo Serrano, Schlumberger; Andrew Applejohn, Aurora Research Institute; Michael Fabijan, Kavik-Axys.

### *August 8-10, 2007*

*Kavik-Axys:* Michael Fabijan attended on August 9, 2007 at 9:30 am to discuss the Traditional Knowledge Manual

### *September 12-14, 2007*

*Shell Exploration and Production, Inc., (SMITH), Kulluk Mobile Offshore Drilling Unit (MODU) 2007/2008 Over-wintering Program in Herschel Basin, Yukon. [07/07-03]* September 13, 2007 at 10:00 am. The following people attended to provide a presentation regarding the above noted project: Rick Hoos, EBA; Sandra Lukas-Amulung, EBA; Cody Teff, Shell; Jim Guthrie, Kulluk Arctic Services ULC (Frontier Drilling); Keith Craik, Shell Technical Advisor; Bob Smith, Shell.

### *October 21 & 22, 2007*

*Mackenzie Valley Environmental Impact Review Board:* The Board attended on October 22, 2007 at 3:00 pm to meet the EISC. The following people attended: John Stevenson, Charlie Snowshoe, Vern Christiansen, Richard Edjericon, Nora Doig, Martin Haefele, Gabrielle Mackenzie-Scott

*Yukon Environmental and Socio-economic Assessment Board (YESAB):* Mike Muller and Aliesha Narain attended on October 22, 2007 at 4:00 pm to provide an update on YESAB activities.

### *November 21-23, 2007*

*GNME Victoria Island Ni-Cu-PGE Exploration Project1 [10/07-01]* Dylan Morgan attended on November 22, 2007 at 10:00 am to discuss the above noted project.

*Arctic Net, Inuit Health and Circumpolar Flaw Lead study. IPY [06/07-05]* - Conference Call, November 22, 2007 at 11:00 am with David Barber to discuss issues relating to the above noted project.

### *December 12-14, 2007*

*Canadian Wildlife Services:* Craig Dockrill attended on December 13, 2007 at 9:30 am to provide an update on CWS activities.

*Environment and Natural Resources GNWT:* Marsha Brannigan attended on December 13, 2007 at 11:00 am to give a general presentation to update the EISC on issues relating to caribou.

### *January 29-February 1, 2008*

*Fisheries and Oceans Canada:* Lois Harwood and Jonathan Michel attended at 10:30 am on January 30, 2008 to give a brief presentation on whales and seals.

### **February 28-March 1, 2008**

*GNME Victoria Island Ni-Cu-PGE Exploration Project1 [10/07-01]* Conference Call on February 28, 2008 at 11:00 am Dylan Morgan participated via conference call to discuss the above noted project.

*Imperial Oil (McCRIMMON) Proposed Ajurak Exploration License 446 Beaufort Sea 3-D Seismic Program, Summer 2008* on February 29, 2008 at 9:30 am The following people attended to give a presentation regarding the above noted project: Glen McCrimmon, Imperial Oil; Allan Kennedy, Imperial Oil; Evan Bertrand, Imperial Oil; Roy Wilson, Imperial Oil; Michael Fabijan, Kavik Axis; James Hall, Exxon Mobile; Mike Dezep Western Geco.

*GXT (KENNEDY) GXT 2008 Marine Vibroseis Research Project (Flex Wave Test)* on February 29, 2008 at 10:30 am The following people attended: Garth Seabrook, Geokinetics; Rob Pitt, GXT; Dean Kennedy, GXT; Tom Byers, Geokinetics; Valerie Moulton, LGL Biologist

*INAC Contaminated Sites Program-Johnson Point Site Remediation* on February 29, 2008 at 3:00 pm Joel Gowmam attended to discuss the above noted project.

## **Events Attended**

During the fiscal year, the Chair, Members, and/or Secretary attended the meetings, conferences, or workshops listed below.

Board Forum, Norman Wells, NT, May 2007

- Fred McFarland

Joint Secretariat Board Meeting, Calgary, AB, June 2007

- Fred McFarland

GX Technologies Vessels Tour in Victoria, BC, July 2007

- Johnny Lennie and Darren Nasogaluak

MVRMA Relationship Building Workshop, Yellowknife, NT October 10 & 11, 2007

- Fred McFarland

Mining For Non-Miners Workshop, Yellowknife, NT, October 16 & 17, 2007

- Johnny Lennie and Ronnie Gruben

Arctic REET Meeting, Inuvik NT October 17, 2007

- Barb Chalmers

Best Practices for Oil and Gas Development in the North, Inuvik NT, October 23-25, 2007

- Fred McFarland, Johnny Lennie, Albert Ruben, Ronnie Gruben, Eric Cockney, Darren Nasogaluak, Morris George

Wise Water: Mackenzie Basin Waters Workshop, Yellowknife NT, November 14 & 15, 2007

- *Ronnie Gruben and Eric Cockney*

Imperial Oil Resources Limited Environmental Assessment Workshop for the 2008 Ajurak Seismic Program, Inuvik, NT, December 5 & 6, 2007

- *Albert Ruben and Morris George*

IGC Board Meeting, Inuvik NT, December 13, 2008

- *Fred McFarland*

Joint Secretariat Board Meeting, Calgary, AB, January 15 & 16, 2008

- *Fred McFarland*

ENR Caribou Workshop, Yellowknife NT, February 20 & 21, 2008

- *Fred McFarland and Darren Nasogaluak*

Pembina Institute - Oil and Gas Workshop, Calgary AB, March 3-7, 2008

- *Fred McFarland and Morris George*

Northern Regulatory Improvement Initiative of DIAND, Neil McCrank Meeting, Yellowknife, NT, March 18 & 19, 2008

- *Fred McFarland*

IGC Board Meeting, Inuvik NT, March 17, 2008

- *Johnnie Lennie*

## Tours

EISC Community Tour

Aklavik Hunters and Trappers Committee, January 28, 2008

- *Fred McFarland, Johnnie Lennie, Barb Chalmers, Eli Arkin, Fred Kuptana*

Inuvik Hunters and Trappers Committee, January 31, 2008

- *Fred McFarland, Johnnie Lennie, Morris George, Barb Chalmers, Eli Arkin, Christine Inglangasuk*

Tuktoyaktuk Hunters and Trappers Committee, January 29, 2008

- *Fred McFarland, Eric Cockney, Ronnie Gruben, Barb Chalmers, Eli Arkin, Fred Kuptana*

## Finances

A Summary of the finances for the period 1 April 2007 to 31 March 2008 is attached as Appendix C.

## Appendix A: Submissions to the EISC
