Foreword

On behalf of the Environmental Impact Screening Committee (EISC), I am pleased to present the EISC's 2023-2024 Annual Report.

The core mandate of the EISC, as set out in Section 11 of the Inuvialuit Final Agreement (IFA) is to carry out the environmental screening of project proposals. Provisions governing the activities and operation of the EISC are described mainly within IFA sections 11, 12 and 13. Over the course of 2023-2024, the EISC received ninety-five (95) project proposals. Of these, the EISC determined that forty-eight (48) proposals were exempt from screening, one (1) was not within the ISR, and thirty (30) were not considered "development". The remaining sixteen (16) were subject to screening. No proposals were referred to environmental impact review. This report provides further details regarding the nature of the proposals and the screening results.

Current members of the EISC as of March 31, 2024 were Mr. Darin Nasogaluak, Mr. Issaic Elanik, Mr. Bengt Pettersson, Mr. Ray Ruben Sr, Mr. Todd Slack, Dr. Ron Wallace, and myself. Ms. Michel Lindsay is the EISC Coordinator and Mr. Fletcher Dares supported the work of the EISC from May 2023 through March 2024 as a student intern.

Committee members and staff attended screening meetings approximately every six weeks, most of which were held in person in Inuvik. The pre-screening subcommittee met electronically throughout the year to determine whether a project proposal required screening. Members also undertook related duties as required, including attending conferences and workshops related to the mandate of the EISC. The Chair also attended the meetings of the Joint Secretariat Board.

Other key achievements during 2023/2024 included enhancements to the EISC online registry, development of content and materials to be incorporated into a new EISC website, and an information exchange protocol with the Yukon Environmental and Socio-economic Assessment Board.

The EISC cannot fulfil its mandate without the active support and engagement of all involved parties, including proponents, Inuvialuit communities and individuals, the Joint Secretariat administration, Inuvialuit organizations and federal and territorial government bodies. We are and continue to be deeply appreciative of their help and expert guidance and advice.

Sincerely,

David Livingstone
Chair, Environmental Impact Screening Committee

Introduction

On June 5, 1984, the Committee for Original Peoples' Entitlement (representing the Inuvialuit) and the Federal Government of Canada signed the Inuvialuit Final Agreement (IFA), which was subsequently legislated under the Western Arctic (Inuvialuit) Claims Settlement Act [S.C. 32-33 Elizabeth II C.24.]. Provisions of the IFA enable the Inuvialuit to participate and be meaningful partners in all decisions-making processes dealing with the management of the environment and wildlife within the Inuvialuit Settlement Region (ISR). Section 1 of the IFA expresses the following principles:

- To preserve Inuvialuit cultural identity and values within a changing northern society.
- To enable Inuvialuit to be equal and meaningful participants in the northern and national economy and society.
- To protect and preserve arctic wildlife, environment, and biological productivity.

As one of five co-management bodies established pursuant to the IFA, the EISC plays a vital role in achieving these goals.

The EISC's mandate is to undertake a preliminary assessment of a proposed development and its environmental effects to determine whether a proposed development "...could have a significant negative environmental impact". The test of significance has a relatively low threshold as is appropriate at a preliminary environmental screening stage. If the EISC determines that the proposed development "could" have a significant negative environmental effect that cannot be mitigated, then the proposed development may be referred to an environmental impact review process for further assessment and review. Additional responsibilities of the EISC, as set out in the IFA, can be found in Appendix B.

This Annual Activity report summarizes the EISC's activities for the fiscal period of 1 April 2023 to 31 March 2024.

Membership

The following individuals comprised the EISC as of March 31, 2024:

Chair

David Livingstone
Yellowknife, NT
Appointed by the Government of Canada with the agreement of the Inuvialuit Game Council and the Inuvialuit Regional Corporation.
Present Term: October 31, 2023 – October 30, 2026
Previous Term: October 6, 2020 – October 5, 2023
Previous Term: August 14, 2017 – August 13, 2020

Members

Ray Ruben Sr.
Paulatuk, NT
Appointed by the Inuvialuit Game Council
Present Term: October 1, 2022 – September 30, 2025
Previous Term: October 1, 2019 – September 30, 2022
Previous Term: October 1, 2016 – September 30, 2019

Darin Nasogaluak
Sachs Harbour, NT
Appointed by the Inuvialuit Game Council
Present Term: October 1, 2021 – September 30, 2024

Issaic Elanik
Sachs Harbour, NT
Appointed by the Inuvialuit Game Council
Present Term: October 1, 2023 – September 30, 2026

Bengt Pettersson
Whitehorse, YT
Nominated by the Yukon Government
Present Term: August 5, 2022 – August 4, 2025
Previous Term: August 5, 2019 – August 4, 2022
Previous Term: August 5, 2016 – August 4, 2019

Todd Slack
Yellowknife, NT
Appointed by the Government of Canada
Present Term: August 23, 2022 – August 22, 2025
Previous Term: August 23, 2019 – August 22, 2022

Dr. Ron Wallace
Calgary, AB
Nominated by the Government of the Northwest Territories
Present Term: March 22, 2022 – March 21, 2025
Previous Term: March 22, 2019 – March 21, 2022

Shannon O'Hara
Inuvik, NT
Appointed by the Inuvialuit Game Council
Present Term: October 1, 2022 – September 5, 2023
Present Term: October 1, 2019 – September 30, 2022
Previous Term: October 1, 2016 – September 30, 2019

Administrative and Technical Assistance

The EISC receives administrative, technical, and clerical support from the Joint Secretariat. The Resource Coordinator, Michel Lindsay, provides full-time office support for the EISC. The EISC Coordinator position was fully staffed during the period of this report.

During the period of this report the EISC also received administrative and technical support from various members of the Joint Secretariat including: Fletcher Dares, EISC intern; Jen Lam, Executive Director; Jodie Maring, Committee Program Manager; Eunice Thrasher, Office Manager; Vina Norris, Human Resource Manager; Olubunmi AJakpo, Finance Manager; Emma Wolki, Finance Analyst; Gloria Nasogaluak, Travel and Logistics Coordinator; Mwenya Mwansa, Information Tech and System Analyst; and Dorothy Amos, Secretary/Receptionist.

JoAnn Jamieson, of Jamieson Lauren + Co. provided legal advice.

Jamie Van Gulck and Drew Stavinga of ARKTIS Solutions Inc. provided the EISC with technical expertise on projects submitted to the EISC.

Committee Activities

Members attended screening meetings approximately every six weeks and participated in other activities on behalf of the EISC as required to fulfill the mandate of the EISC and to *“expeditiously determine if the proposed development could have a significant negative environmental impact”* pursuant to section 11.(17) of the IFA.

Regular meetings

Nine regular meetings were held face to face for members: April 21, 2023, May 30, 2023, July 20, 2023, August 23, 2023, September 26, 2023, November 15, 2023, December 13, 2023, January 24, 2024, and March 6, 2024.

In addition to the regular EISC meetings, the Screening Committee held a teleconference call on August 10, 2023 to reach decisions on files undergoing full environmental impact screening. The Pre-screening Subcommittee also met electronically as and when required to determine whether a project proposal required an environmental impact screening.

Submissions

It is the responsibility of the proponent to submit a project description to the EISC for environmental screening. Pursuant to IFA s 11.(36), *“no license or approval shall be issued that would have the effect of permitting any proposed development to proceed unless the provisions of [IFA section 11(36)] have been complied with”*. This requirement has the effect of requiring

competent authorities to give notice of applications for licenses, permits or other authorizations to the EISC. These applications for proposed developments must be reviewed by the EISC to determine if they are subject to environmental impact screening.

A pre-screening decision as to whether a project proposal requires an environmental impact screening is made by a subcommittee consisting of at least three of the seven EISC members. A panel of at least five EISC members makes environmental impact screening decisions. The panel consists at a minimum of the Chair, two Inuvialuit members, a Canada member, and a territorial member nominated by the territory (YT or NT) within which the project is to occur. Decisions are made on a consensus basis whenever possible. When necessary, decisions are made by majority vote, with the Chair voting only in the case of a tie.

Over the period of the 2023/2024 fiscal year, a total of ninety-five (95) projects were submitted to the EISC. Table 1 and Table 2 provide a breakdown of the projects submitted to the EISC over the 2023/2024 Fiscal Year.

Project File Status	Number
Not Development	30
Exempt from Screening	48
Subject to Screening	16
Cancelled	1
Total	95

Table 1. The Project Submissions Received by the Environmental Impact Screening Committee Broken-down Categorically for the 2023/2024 Fiscal Year

Project Type	Number of Projects
Research	44
Tourism	23
Cruise Ships	16
Monitoring	5
Infrastructure	4
Remediation	1
Prospecting	1
Miscellaneous	1
Total	95

Table 2. The Project Submissions Received by the Environmental Impact Screening Committee Broken-down by Decision Type for the 2023/2024 Fiscal Year

In addition to developments that are screened, the EISC asks to be informed of other projects proposed for the ISR that for various reasons may be exempt from the screening process. This enables the EISC to have a broad picture of the activities being carried out within the ISR for the purposes of cumulative impact assessment.

The EISC greatly appreciated the efforts of the other Joint Secretariat co-management groups, government agencies, neighboring environmental assessment bodies, Inuvialuit Water Board, and Inuvialuit Land Administration during the reporting year to keep the EISC apprised of such activities.

Appendix D: EISC Submissions includes a chart which summarizes the above screening activities.

Other Activities

Internal administrative projects were undertaken by the EISC during the 2023/2024 reporting period to fulfill section 11.(14) under the IFA, i.e., *“The Screening Committee may establish and adopt by-laws and rules for its internal management and procedures in order to ensure reasonable and expeditious consideration of applications”*. The main projects are summarized below.

EISC Registry

The development of the new EISC Online Registry was initiated in December 2020 and went live in October 2021. In addition to the Care and Maintenance of the Online Registry, the Screening Committee continues to work with the Registry contractor (EY Canada LLP) to identify new features and enhancements to improve the function and user experience on this platform.

EISC Website

The EISC’s current website hosting platform is obsolete. It was created prior to 2014 and can no longer be updated. The content and material resources are also out of date and require revisions. The completion of a new website could not be completed in the 2023/2024 fiscal year as the EISC did not have the required funds to undertake the project. The EISC did initiate internal development of up-to-date content that will be used for the new website when funds become available.

EISC Community Tour

The EISC previously agreed that it would aim to conduct community tours to the six Inuvialuit Settlement Region communities every five years to inform and update communities on the roles and responsibilities of the EISC; and also to encourage stakeholder comment submissions for projects undergoing screening. The last EISC community tour was held in 2019. The EISC aimed to complete the community tour in the 2023/2024 fiscal year, however, the available funding was not sufficient.

Presentations and Guests

The EISC routinely accepts presentations from proponents, particularly when the proposal is potentially controversial or complex. Other guests are invited to speak on topics of mutual interest. The following summarizes the presentations and guests received during 2023/2024.

May 9, 2023

- Polar Knowledge Canada

Lynda Orman

- Inuvialuit Petroleum Corporation – Update on M-18 project
Alan MacDonald
Travis Balaski
Brent Jones

November 15, 2023

- GNWT Education, Culture and Employment – Research Licencing
Terrilyn Chiasson

January 24, 2024

- WSP & Shell Canada – Assessment and Remediation Projects
Stephanie Villeneuve, WSP
Patrick Kalita, WSP
Julia Krizan, WSP
Dave Kliewer, Shell Canada
Kyle Thompson, Shell Canada
Renata de Figueiredo Pino, Shell Canada

Other Meetings Attended by the Environmental Impact Screening Committee Members or Appointed Representatives

During the fiscal year, the Chair, Members, and Coordinator attended other meetings related to their duties and the work of the EISC. These include the meetings, conferences, and workshops listed below.

April 2023

- Joint Secretariat Board Meeting April 28, 2023 – attended by David Livingstone

May 2023

- Prairies and Northern Regions Canadian Marine Advisory Council Meeting May 10-11, 2023 – attended by Todd Slack
- Mackenzie Valley Land and Water Board Guidelines Engagement Workshop May 17, 2023 – attended by Todd Slack
- Mackenzie Valley Environmental Impact Review Board, Environmental Assessment Implementation Workshop May 30, 2023 – attended by Todd Slack

June 2023

- Inuvialuit Game Council Meeting June 14-15, 2023 – attended by Ray Ruben Sr. and Fletcher Dares

July 2023

- Joint Secretariat Board Meeting July 13-13, 2023 – attended by David Livingstone

October 2023

- Joint Secretariat Board Meeting October 17-18, 2023 – attended by Ray Ruben Sr., and David Livingstone (virtual)
- Water Stewardship Workshop October 25-26, 2023 – attended by Ray Ruben Sr.

November 2023

- Prairies and Northern Regions Canadian Marine Advisory Council Meeting November 8-9, 2023 – attended virtually by Todd Slack and Michel Lindsay
- OROGO Workshop November 14, 2023 – attended by Todd Slack
- Federal Contaminated Sites Workshop November 29-30, 2023 – attended virtually by Bengt Pettersson and David Livingstone
- Inuvialuit Game Council Meeting November 30, 2023 – attended by Issaic Elanik and Michel Lindsay
- Geoscience Forum November 15-16, 2023 – attended by Darin Nasogaluak

December 2023

- ArcticNet 2023 December 5-7, 2023 – attended virtually by Ray Ruben Sr.

January 2024

- Joint Secretariat Board Meeting January 10, 2024 – attended virtually by David Livingstone

March 2024

- Inuvialuit Game Council Meeting March 7, 2024 – attended by David Livingstone and Darin Nasogaluak

Funding

Funding of all renewable resource-related activities associated with the implementation of the IFA is provided to the Joint Secretariat by Canada and coordinated by CIRNAC. Funding in 2023/2024 represented the seventh year in a 10-year funding commitment.

The funding agreement process is coordinated by CIRNAC, and the Joint Secretariat is responsible for overseeing the budget forecasts for the Treasury Board submission. The funds received via the contribution agreement between CIRNAC and the Joint Secretariat support the operational activities of the Committee. These costs, which include Chair costs and salary, Canada member costs and salary, and operational costs for the EISC Coordinator, are detailed in appendix D along with the funding received from the Department of Environment and Natural Resources (GNWT) through a contribution agreement for the costs incurred for the Inuvialuit Members.

The funding for the members nominated by the Government of Yukon and the Government of the Northwest Territories are provided by the respective government.

Summary

The 2023/2024 fiscal year saw a rise in project submissions compared to the previous fiscal year, largely as a result of the relaxation of COVID-19 constraints. Additional information on the projects submitted to the EISC can be found in the EISC Registry at www.screeningcommittee.ca.

NS	North Slope
YG	Yukon Government
MOU	Memorandum of Understanding
RAs	Regulating Agencies
WMAC (NS)	Wildlife Management Advisory Council (North Slope)
WMAC (NWT)	Wildlife Management Advisory Council (Northwest Territories)
YT	Yukon Territory

Appendix B: EISC Responsibilities under the IFA

As described in the Inuvialuit Final Agreement, The Environmental Impact Screening Committee shall, among its other activities:

Section 11.(1) *The developments subject to environmental impact screening include:*

- (a) developments described in subsection 13(7);*
- (b) developments in the Yukon North Slope region described in section 12;*
- (c) developments in the Inuvialuit Settlement Region in respect of which the Inuvialuit request environmental impact screening; and*
- (d) subject to any agreement between the Inuvialuit and the Dene/Metis, developments in areas including the Aklavik land selections where the traditional harvest of the Dene/Metis may be adversely affected, on request by the Dene/Metis or by the Inuvialuit*

Section 11.(14) *The Screening Committee may establish and adopt by-laws and rules for its internal management and procedures in order to ensure reasonable and expeditious consideration of applications.*

Section 11.(15) *A register shall be kept of all decisions of the Screening Committee and the decisions shall be made available to the public on request.*

Section 11.(17) *On receipt of a project description, the Screening Committee shall expeditiously determine if the proposed development could have a significant negative environmental impact and shall indicate in writing to the governmental authority competent to authorize the development that, in its view:*

- (a) the development will have no such significant negative impact and may proceed without environmental impact assessment and review under this Agreement;*
- (b) the development, if authorized subject to environmental terms and conditions recommended by the Screening Committee, will have no such significant negative impact and may proceed without environmental impact assessment and review under this Agreement.*
- (c) the development could have significant negative impact and is subject to assessment and review under this Agreement; or*
- (d) the development proposal has deficiencies of a nature that warrant a termination of its consideration and the submission of another project description.*

Section 11.(37) *No licence or approval shall be issued that would have the effect of permitting any proposed development to proceed unless the provisions of this section have been complied with.*

Appendix C: Financial Summary for Year Ending 31 March 2024

The Following pages present unaudited financial summaries for the Joint Secretariat. It is provided for information purposes and should not be considered as definitive statements of account.
